

Main production equipment (photo)

Heating furnace (table type)

Heating furnace (reheating)

Heating furnace (ring)

Rolling machine (cold rolling)

Tube rolling machine (cold drawing)

Hot extruder

Heat treatment equipment (annealing furnace)

Heat treatment equipment (normalizing furnace)

Heat treatment equipment (solution heat treatment)

Heat treatment equipment (tempering furnace)

Heat treatment equipment (quenching furnace)

Heat treatment equipment (bright furnace)

Pickling and passivation equipment

Online automatic marking equipment

Online automatic marking equipment

Main experimental equipment (photo)
spectroanalysis instrument

Metal analyzer (electron microscope detection)

Metal analyzer (carbon and sulfur analysis)

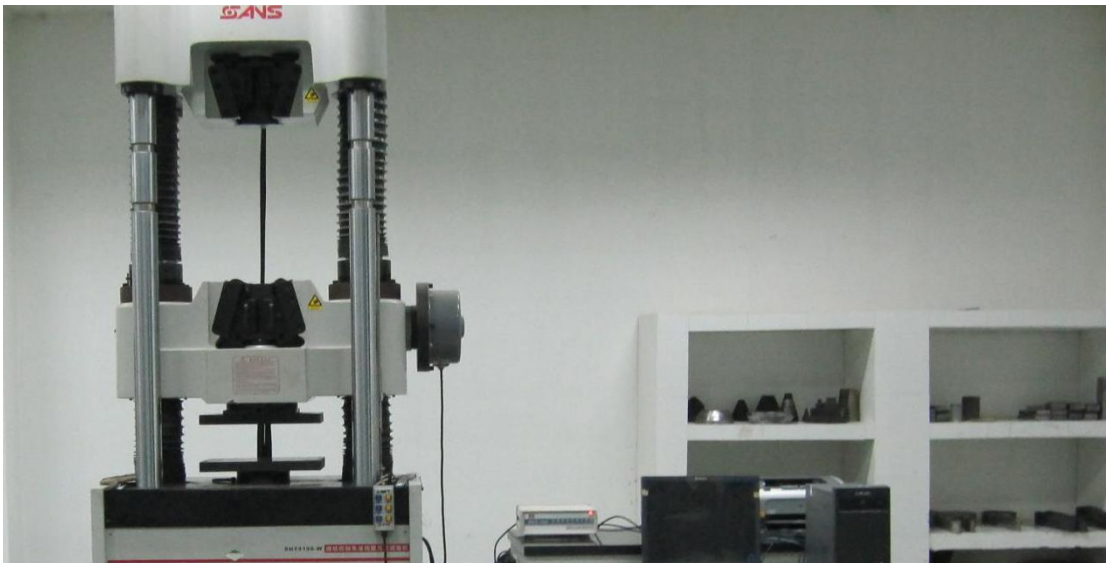

Metal analyzer (gas detection)

Metal analyzer (hardness test)

Universal testing machine (flattening, bending, spreading, etc.)

impact testing machine

Metallographic analyzer

Main nondestructive testing equipment (photo)

German Roman online eddy current testing machine

German KK online ultrasonic thickness measuring machine

Ultrasonic and eddy current combined thickness measuring equipment

Magnetic powder testing equipment

Environmental protection requirements, waste acid treatment equipment
